COUNCIL COMMUNICATION

AGENDA TITLE: Contract Award for Treated Wastewater Pump and Motor, White Slough Water Pollution Control Facility Equalization Pond, 12751 North Thornton Road (\$22,150)

MEETING DATE: September 7, 1994

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council adopt the attached resolution awarding the contract for the above project to Pump Repair Service Company of Daly City in the amount of \$22,150.00.

BACKGROUND INFORMATION: This project provides for the purchase and installation of a small low-lift wastewater pump that transfers effluent from the holding ponds to irrigate the fields adjacent to the treatment plant. This equipment is required to more efficiently handle the plant effluent to the existing and recently expanded farm operations.

On July 6, 1994, eight bids were received for the Treated Wastewater Pump and Motor. A copy of the bid tabulation sheet is attached. The first four bids do not meet the specifications and are unacceptable. The fifth bid, a Verti-Line Pump furnished by Pump Repair Service Company, is being recommended for the award of the contract.

The bid proposal from Pump Repair Service Company also had two informalities that staff is asking Council to waive in awarding the contract:

1. Pump Repair Service Company used one bid proposal to furnish a price for both the Verti-Line Pump and the Prime Pump. Deputy City Attorney Luebberke reviewed the bid proposal and determined that the two bids on one form was not a problem and that the informality could be waived by the Council.
2. The bid proposal from Pump Repair Service Company also indicated that the Verti-Line Pump would be delivered eight to ten weeks after the submittals had been approved. The specifications provided for 30 working days. Pump Repair Service Company informed the City that Verti-Line Pump Company was recently purchased by Aurora Pump Company and that there is a large backlog of orders because of the merger. The additional few weeks of delivery time on the pump and motor will not cause a problem at the treatment plant.

<u>Bidder</u>	<u>Location</u>	<u>Bid</u>
Engineer's Estimate		\$ 22,000.00
1. Howk Systems	Modesto	\$ 13,800.00
2. Pump Repair Service Co.	Daly City	\$ 19,850.00
3. Moorman's Water Systems, Inc.	Stockton	\$ 19,874.00
4. Moorman's Water Systems, Inc.	Stockton	\$ 20,849.00
5. Pump Repair Service Co.	Daly City	\$ 22,150.00
6. Noack Pump	Stockton	\$ 22,623.00
7. Pete Fuller Construction	Vacaville	\$ 25,298.00
8. Kirby's Pump and Mechanical Inc.	Rancho Cordova	\$ 58,750.00

A comparison was made between the cost of running two of the existing 60 horsepower pumps or running one 60 horsepower pump with the new 20 horsepower pump. The annual energy and maintenance savings will be approximately \$9,000.00. This savings will pay for the purchase and installation of the 20 horsepower pump and motor in less than three years. As this is a reasonable payback period for any capital improvement, staff is recommending that Pump Repair Service Company be awarded the contract for the treated wastewater pump and motor.

FUNDING: Originally Budgeted: 1993/94
Budgeted Fund: Wastewater Capital Reserve Fund
Current Appropriation: \$22,000.00
Total Project Estimate: \$26,500.00
Bid Opening Date: July 6, 1994
